# **Lesson 6 Reteach**

## Sales Tax, Tips, and Markup

**Sales Tax** is a percent of the purchase price and is an amount paid in addition to the purchase price.

**Tip,** or **gratuity**, is a small amount of money in return for service. The amount a store increases the price of an item by is called the **markup**.

Method 2

## **Example 1**

## SOCCER Find the total cost of a \$17.75 soccer ball if the sales tax is 6%.

#### Method 1

First, find the sales tax.	100% + $6%$ = $106%$ $$ Add the percent of tax to 100%.
6% of \$17.75 = 0.06 • 17.75	The total cost is 106% of the regular price.
$\approx 1.07$	$106\%$ of $17.75 = 1.06 \cdot 17.75$
The sales tax is \$1.07.	$\approx 18.82$

Next, add the sales tax to the regular price.

1.07 + 17.75 = 18.82

The total cost of the soccer ball is \$18.82.

## Example 2

#### MEAL A customer wants to leave a 15% tip on a bill for \$18.50 at a restaurant.

Method 1 Add tip to regular price.	Method 2 Add the percent of tip to 100%.
First, find the tip.	100% + 15% = 115% Add the percent of tip to 100%.
$15\%$ of $18.50 = 0.15 \cdot 18.50$	The total cost is 115% of the bill.
= 2.78	$115\%$ of $18.50 = 1.15 \cdot 18.50$
Next, add the tip to the bill total.	= 21.28
\$18.50 + \$2.78 = \$21.28	

The total cost of the bill is \$21.28.

## Exercises

#### Find the total cost to the nearest cent.

<b>1.</b> \$22.95 shirt, 6% tax	<b>2.</b> \$24 lunch, 15% tip
<b>3.</b> \$10.85 book, 4% tax	4. \$97.55 business breakfast, 18% tip
<b>5.</b> \$59.99 DVD box set, 6.5% tax	<b>6.</b> \$37.65 dinner, 15% tip
