

# Lesson 3 Skills Practice

## Subtract Integers

Subtract.

1.  $5 - 2 = 3$

2.  $6 - (-7) = 13$

3.  $-3 - 2 = -5$

4.  $8 - 13 = -5$

5.  $-7 - (-7) = 0$

6.  $6 - 12 = -6$

7.  $15 - (-7) = 22$

8.  $-15 - 6 = -21$

9.  $-3 - 8 = -11$

10.  $-10 - 12 = -22$

11.  $13 - (-12) = 25$

12.  $14 - (-22) = 36$

13.  $10 - (-20) = 30$

14.  $-16 - 14 = -30$

15.  $-25 - 25 = -50$

16.  $6 - (-31) = 37$

17.  $-18 - (-40) = 22$

18.  $15 - (-61) = 76$

Evaluate each expression if  $r = -4$ ,  $s = 10$ , and  $t = -7$ .

19.  $r - 7 = -11$

20.  $t - s = -17$

21.  $s - (-8) = 18$

22.  $t - r = -3$

23.  $s - t = 17$

24.  $r - s = -14$
