

## Lesson 2 Skills Practice

### *Add Integers*

Add.

1.  $5 + (-8)$

2.  $-3 + 3$

3.  $-3 + (-8)$

4.  $-7 + (-7)$

5.  $-8 + 10$

6.  $-7 + 13$

7.  $15 + (-10)$

8.  $-11 + (-12)$

9.  $25 + (-12)$

10.  $-14 + (-13)$

11.  $14 + (-27)$

12.  $-28 + 16$

13.  $5 + 11 + (-5)$

14.  $7 + (-5) + 5$

15.  $9 + (-9) + 10$

16.  $-2 + 19 + 2$

17. **FOOTBALL** The Dolphins football team gained 16 yards on their first play then lost 11 yards on the next play. Write an addition expression to represent this situation. Find the sum and explain its meaning.

18. **SAVINGS ACCOUNT** Demetrius deposits \$120 into his account. One week later, he withdraws \$36. Write an addition expression to represent this situation. How much higher or lower is the amount in his account after these two transactions?
