

**Chapter 3 Student-Built Glossary*****Equations in Two Variables***

This is an alphabetical list of new vocabulary terms you will learn in Chapter 3. As you study the chapter, complete each term's definition or description. Remember to add the page number where you found the term. Add these pages to your math study notebook to review vocabulary at the end of the chapter.

| Vocabulary Term             | Found on Page | Definition/Description/Example |
|-----------------------------|---------------|--------------------------------|
| constant of proportionality |               |                                |
| constant of variation       |               |                                |
| constant rate of change     |               |                                |
| direct variation            |               |                                |
| linear relationship         |               |                                |
| point-slope form            |               |                                |
| rise                        |               |                                |

|                      |  |  |
|----------------------|--|--|
| run                  |  |  |
| slope                |  |  |
| slope-intercept form |  |  |
| standard form        |  |  |
| substitution         |  |  |
| systems of equations |  |  |
| x-intercept          |  |  |
| y-intercept          |  |  |
